

ABOUT

Young, eager to learn and with special devotion for technology and computer science. I am looking forward to developing my professional career in the area of Financial Management and Control of a large company. I want to progress in a constant learning environment and be able to implement new systems that boost business growth.

EXPERIENCE

Business Intelligence Developer

📍 *Kingspan Insulation* | *mar 2022 - present*

📍 *Girona*

Working on the IT team alongside Agility ERP software developers, we design a customized solution for many factories around the world. My tasks are focused on data analytics with a deep understanding of all business processes. Managing data pipelines using T-SQL queries and ETL techniques supported by stored procedures and job schedules. Developing advanced analytical models and reporting in SSAS, Power BI, SSRS, and Report Builder. Providing actionable insights to business users in order to facilitate an informed decision-making and driving the company to an organizational efficiency model.

BI Consultant

📍 *CUBBI* | *AEDES* | *FCI* | *oct 2021 - present*

📍 *Girona*

Expert in Microsoft BI technologies. We offer high quality consulting services on DAX and Data Modeling for Power BI, Analysis Services and Power Pivot. We believe that training is one of the key aspects that favors the growth of a company.

Business Data Analyst

📍 *Costa Brava Foods* | *sep 2023 - feb 2024*

📍 *Girona*

Defining workflows in Navision with the primary objective of optimizing processes and guarantee our data quality. Proficiently extracting and refining raw data through SQL queries and procedures. Orchestration and managing data flows. Developing advanced analytical models in Power BI and calculating business measures using DAX. Uncovering intricate data patterns and empowering the company to understand better the business. Defining reports and showing insights to enhance decision-making.

Commercial Controller

📍 *INOXPA* | *mar 2022 - sep 2023*

📍 *Girona*

Report to CCO & CFO, support to the 21 commercial delegations in the world, follow-up of industrial and commercial margins, review of exchange rates and monitoring of discounts, preparation of the company's budget and strategic plan, review of business procedures in Microsoft Dynamics AX, implementation of PowerBI as the main reporting tool.

Business Controller

📍 *Mediamarkt Iberia* | *mar 2020 - jun 2020*

📍 *Barcelona*

Management control of the whole network shops, monthly reporting of KPI metrics by store, budgeting and measurement of the company target, performing strategic planning supported by business forecast models, analysis of profitability for promotions and commercial campaigns, carrying out periodically financial audits in order to quality control policies and procedures.

Commercial Controller

📍 *HARIBO Spain* | *jun 2016 - mar 2020*

📍 *Girona*

Calculation of the expense provisions by commercial agreements, forecast of the annual budget, development of TM1 solutions in IBM Cognos BI, reporting NNSales to the Holding Group, design consistent business control models for financial accounting, pricing and promotions strategy, analysis of logistics projects, reconciliation of intercompany sales for the Konzernplan.
